

CAS N° 69-72-7
EINECS #200-712-3

Manufactured in **FRANCE** and **BRAZIL**

YSA[®]
by **Novacyl**

SALICYLIC ACID

2-HYDROXYBENZOIC ACID
ORTHOHYDROXYBENZOIC ACID

PHARMA GRADE
ULTRA PURE & WHITE
DUAL SOURCING CAPABILITY
GRANULAR GRADE AVAILABLE

YSA[®]
Pharma

YSA Pharma is a GMP, CEP and US FDA approved pharma **intermediate** with multiple reacting sites to form a wide range of APIs and antiseptic agents. Thanks to multiple virtues it has (squamolytic, keratolytic, exfoliating, antibacterial, antimycotic, astringent and anti-ageing) and thanks to a unique process, YSA Pharma is the **purest** and the **best PSD** available on the market.

YSA[®]
Premium

YSA Premium is an **ultra pure ingredient** for **cosmetic formulations** (anti-acne and anti-ageing creams, exfoliating masks and lotions, shampoos...). YSA Premium is the **finest grade** on the market particularly suitable to demanding formulations. It is also a high quality synthesis intermediate for the manufacture of **high quality perfumery ingredients**.

YSA[®]
Standard

YSA Standard is an excellent **curing accelerator** and highly efficient **polymer structure** modifier for epoxy resins in high performance industrial applications. YSA Standard is a powerful cross inked, corrosion inhibitor, metal chelating agent and great Biocide properties (fungicide & pesticide).

- _ **REACH** registered
- _ **CEP/COS CEP 1993-008**
(pharma grade only)
- _ **French site is GMP certified**
- _ **US FDA Inspected (June 2016)**
- _ **ISO 9001 certified**

Free samples available on request

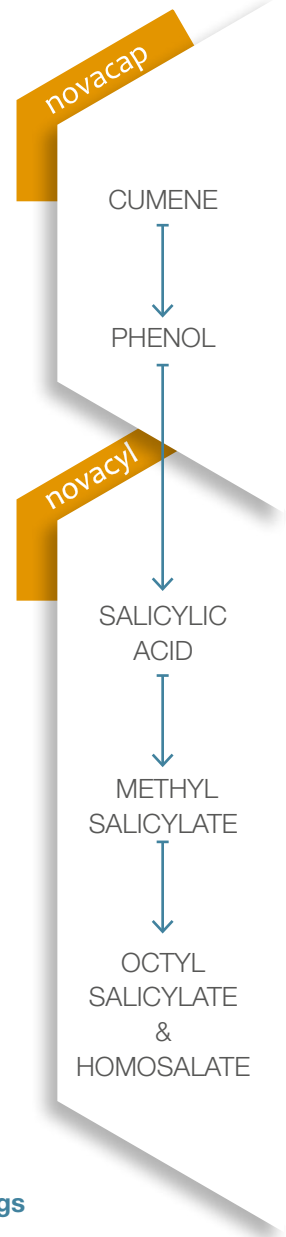

- No class I, II or III solvent
 - No metal catalyst or metal reagents
- used at any stage in the process

FEMA N°	3985
REACH	Registration # 01-2119486984-17-0000 (French & Brazilian plant)
REGULATORY	<ul style="list-style-type: none"> _ Listed on European Flavouring substances _ Listed on the cosmetic regulation as allowed preservative
INCI NAME	Salicylic acid

In France only

SALICYLIC ACID GRADES

Pharma	<ul style="list-style-type: none"> _ Manufactured according to GMP (ICH Q7) _ Compliant with USP, Ph Eur, JP, JSQI _ Purity higher than 99.0% _ Ultra low Impurities (PhBA, PiBA, Phenol) _ Sulfate content <0.02% (specific method) _ Kosher and Halal compliant _ GMO Free _ BSE / TSE Free _ Micronized grade available
Premium	<ul style="list-style-type: none"> _ Purity higher than 99.5% _ Phenol content <0.02% _ Sulfate content <0.04% (specific method) _ Kosher and Halal compliant _ Paraben Free _ Free of cosmetic allergen
Standard	<ul style="list-style-type: none"> _ Purity higher than 99% _ Sulfate <0.1% (specific method) _ No heavy metals _ White product

DESIGN: dido; PHOTO CREDIT: SHUTTERSTOCK - FOTOLIA THE INFORMATION IS GIVEN IN GOOD FAITH BASED ON NOVACYL'S CURRENT KNOWLEDGE - NOT CONTRACTUAL DOCUMENT - OCT. 2017

Storage conditions:

The product is stable under ICH accelerated conditions. Therefore, controlled conditions are not required for storage of salicylic acid in climatic zones I and II.

Transport:

- _ **INLAND International Legislation (RID-ADR)** (not regulated)
- _ **SEA FREIGHT (OMI)** (not regulated)
- _ **AIR FREIGHT (IATA)** (not regulated)

Packaging:

- _ 25 kg paper bags
- _ big bags (from 500 to 1000 kg)
- _ 250 lbs cardboard drums (Brazil)

Re-test date: 5 years
